

Fallon Katz

Elkton, MD • fallon.katz@gmail.com • (302) 897-0360

Portfolio: fallonkatz.github.io/Portfolio

Technical Skills

Programming: Java, Python, Kotlin, SQLite

Quality & Validation: Software Quality Assurance, Software Validation & Verification, Static Code Analysis, Requirements Analysis, Code Review, Refactoring, Software Documentation

Tools: Git, GitHub, GitLab, BitBucket, Eclipse IDE, Android Studio, PMD, SpotBugs, Visual Studio

Certification: CompTIA Information Technology Fundamentals (ITF+)

Education

Bachelor of Science, Computer Science

May 2026

Towson University, Towson, MD

- GPA: 3.45
- Dean's List: Spring 2025, Fall 2025, Spring 2026

Associate of Science, Computer Science

May 2023

Cecil College, North East, MD

- GPA: 3.38
- Dean's List: Spring 2023

Projects

Software Quality Assurance Analysis & Enhancement -- FreeCol

- Analyzed an open-source Java application using PMD and SpotBugs to identify defects, code quality issues, and maintainability risks
- Documented issues and tracked corrective actions using GitLab issue tracking workflows
- Refactored code and collaborated with team members to improve maintainability, readability, and overall software quality

Flaky Test Prediction Without Re-Runs Research Project

- Led research on predicting flaky software tests without repeated execution
- Evaluated software testing literature and defined methodology for analyzing test reliability and defect behavior
- Analyzed testing data using Python-based workflows and presented findings on test reliability and predictive approaches

Creature Feature Mobile Application

- Co-developed an Android application supporting task tracking through virtual pet care mechanics
- Designed and implemented SQLite database functionality for application data and user progress storage
- Participated in application testing, debugging, and validation to ensure functionality and usability
- Used version control workflows to coordinate development and collaboration

Work Experience

Kohl's Sales Associate, Newark, DE

September 2023 – May 2024

- Supported daily operations and customer service goals in a fast-paced retail environment
- Resolved customer issues through structured problem-solving and attention to detail
